

**SHERWIN
WILLIAMS®**

Protective & Marine Coatings Division

Europe, Middle East & Africa Overview

Sherwin-Williams Protective & Marine Coatings Your Asset Protection Partner

Protective. As a worldwide leader in asset protection, Sherwin-Williams Protective & Marine Coatings Division is committed to developing and delivering innovative coating technologies and unparalleled services to help you stay competitive within your industry.

Whether you need passive fire protection from our world class FIRETEX® range, or high performance, anti-corrosive coatings solutions, our business is about protecting your business.

Consultative. As your partner, Sherwin-Williams NACE and ICorr certified Technical Service staff are available to provide on-site support anywhere in the world. From bespoke specifications, site surveys, or technical assistance, we can be your total solutions partner, supplying complete backup at all stages of your project.

Comprehensive. We make it our mission to know your business so that we can exceed your expectations. Our customer-centric approach allows us to deliver the best, most reliable and innovative products and services to our partners. Throughout Europe, Africa and the Middle East we focus teams on the Marine, Oil and Gas, Bridge and Highway, Civil Infrastructure, and Mining industries, providing our customers with the highest level of industry relevant expertise and comprehensive support.

Leading Innovations

As a leading coatings technology innovator, we are continuously introducing new products to meet the evolving needs of our customers.

- **Return to service faster** with rapid cure technologies.
- **Deter premature corrosion and extend service life** with edge retentive coatings that minimise the need to radius sharp edges where corrosion starts.
- **Minimise downtime and extend the painting season** with moisture tolerant coatings that can be applied over damp surfaces and in humid environments.
- **Meet or exceed corporate sustainability goals** with our environmentally responsible products.
- **Reduce coating costs** with high performing technologies at lower dry film thickness (DTF).

Global Solutions & Distribution

Sherwin-Williams is committed to supply chain excellence. Our dedicated team works to ensure that we consistently achieve the benchmark of world class supply chain performance. With vast and growing distribution capabilities, we aim to deliver on time and in full, every time.

World Class Research & Development

Each year we invest in the development of technologies that are more durable, more cost effective, more reliable, and more environmentally responsible. On average, we spend over 83,000 hours per year on product performance testing alone. At our UK based FIRETEX® Test Centre, complete with three state-of-the-art furnaces, our range of intumescent coating systems are put through rigorous tests to ensure optimal performance.

The Sherwin-Williams Company

The Sherwin-Williams Company was founded by Henry Sherwin and Edward Williams in 1886. Today, we are a global leader in the development, manufacture and sale of coatings and industrial related products with approximately 33,000 employees and business in 116 countries.

We market our products under such well-known brands as Sherwin-Williams®, Krylon®, FIRETEX®, Euronavy®, Ronseal®, Sayerlack® and Becker Acroma®. FIRETEX® brand coatings, for example, have been used on more than 400 projects protecting offshore platforms, refineries, chemical plants, commercial buildings, and sporting venues.

Globally, we go to market through several channels, including more than 4,000 company-owned paint store and branches, as well as leading mass merchandisers, home centres, independent paint dealers, hardware stores, automotive retailers, and industrial distributors.

With annual sales of \$8.8 billion USD, we are the third largest coatings company in the world, and the largest coatings manufacturer in the United States. In 2011, we acquired UK based Leighs Paints, a company with 150 years experience in protective coatings.
